Dear Sir or Madam,

I would like to express my interest in an internship in Canada. I'm about to finish my last IT Bachelor's year in the EPHEC Louvain-la-Neuve and, by this end, I really would like to have the opportunity to live this experience and to enhance my knowledge, my skills, and my future career by doing an internship in your country.

The whole IT domain has always fascinated me, but I'm actually fond of web development and networks. So these are the domains I really would like to work in, and also to enhance my skills and associate theory with practice.

Before I joined the EPHEC, I asked them if it was possible to do an Erasmus in Canada. Now I'm in my last year there, I hope I'll end my studies by making my dreams come true, and begin my professional life by doing such a rewarding experience.

I have enclosed my resume for you to review.

Thank you for your time and your consideration by reading this letter.

Yours faithfully,

**Samuel Monroe**
